IDENTITY MANUAL

ONE MASTER BRAND. TWO ISLAND EXPERIENCES.

ROOTED IN PLACE. DRAWN TO THE REEF.

Papua Diving Resorts

Brand guidelines 2026

01 / THE BRAND

A SHARED SENSE OF PURPOSE.

A place-led identity for two intimate island stays. Papuan heritage, reef knowledge and responsible hospitality shape the system.

Vision

A future where Raja Ampat's people, culture and marine ecosystems thrive together through responsible tourism.

Mission

Create environmentally responsible holidays, invest in local people and support lasting care for the marine environment.

01

Papuan knowledge

Credit the people, places and living traditions behind the experience.

02

Conservation with evidence

Tell specific stories of stewardship. Verify claims before publication.

03

Warm, informed hospitality

Help guests understand the place, from their first enquiry to their last dive.

INSIDE THE MANUAL

03-05 Logo / 06-08 Colour / 09-10 Typography

11 Voice / 12 Imagery / 13-14 Motifs / 15-17 Applications

18 Release checklist / 19 Files & sources

02 / LOGO SYSTEM

THE MASTER STAYS UNCHANGED.

SUPPLIED MASTER / ORIGINAL PIXELS RETAINED

One identity

Use the supplied Papua Diving Resorts logo exactly as provided. Its bird, lettering, colour and proportions are fixed.

Two resort descriptors

Set Sorido Bay Resort or Kri Eco Resort in Tenor Sans, outside the logo clear space. Do not build new lockups or separate resort logos.

African lettering belongs only to the existing logo. Never retype, trace, simplify, outline, stretch, rotate, recolour or add effects to the mark.

02 / LOGO SYSTEM

SPACE GIVES THE MARK AUTHORITY.

X = HEIGHT OF THE BIRD

Measure the bird from its highest to lowest visible point. Reserve at least 1x on all four sides. Nothing enters this area: text, pattern, imagery detail or trim.

32 mm

Minimum print width

Measure at actual output size.

120 px

Minimum digital display width. Use a 2x source for high-density screens; never shrink the mark to a favicon.

02 / LOGO SYSTEM

PROTECT THE LOGO ON DARK FIELDS.

DARK PAPUA BROWN

DARK / BUSY PHOTOGRAPHY

Use a Natural Linen #F6F1EB pill or rounded-rectangle holding shape. Keep the full 1x bird-height clear space inside the shape. Do not reverse or recolour the logo.

Keep the supplied white field

The supplied raster has an opaque white background. It remains intact within the Linen holding shape; do not remove it or simulate a transparent master.

Never improvise

No white reverse mark, drop shadow, tint, reduced opacity or unapproved crop. A future transparent/vector master must come from the brand owner.

03 / COLOUR

FROM BARK TO BRAND.

Eight shared earth tones. One restrained resort accent. Photography carries the sea; the identity stays grounded in bark, sand and linen.

Papua Brown

#7E2F19

RGB 126, 47, 25

CMYK 24, 83, 91, 29

Master brand / major headings

Bark Clay

#A65A2A

RGB 166, 90, 42

CMYK 22, 65, 86, 12

Warm accents / calls to action

Ochre Clay

#C98A5B

RGB 201, 138, 91

CMYK 17, 46, 68, 3

Highlights / graphic detail

Sandstone

#DCCAAF

RGB 220, 202, 175

CMYK 13, 18, 31, 0

Kri base / tactile fields

Coral Sand

#EFE5D6

RGB 239, 229, 214

CMYK 5, 8, 14, 0

Secondary neutral / panels

Natural Linen

#F6F1EB

RGB 246, 241, 235

CMYK 3, 4, 7, 0

Primary field / logo holding shape

Bark Charcoal

#2B2A27

RGB 43, 42, 39

CMYK 69, 63, 67, 72

Body copy / dark neutral

Sago Leaf

#A8B69A

RGB 168, 182, 154

CMYK 36, 19, 41, 2

Kri accent / conservation cues

03 / COLOUR

ONE FAMILY.
TWO EXPRESSIONS.

SORIDO BAY

Upscale boutique comfort

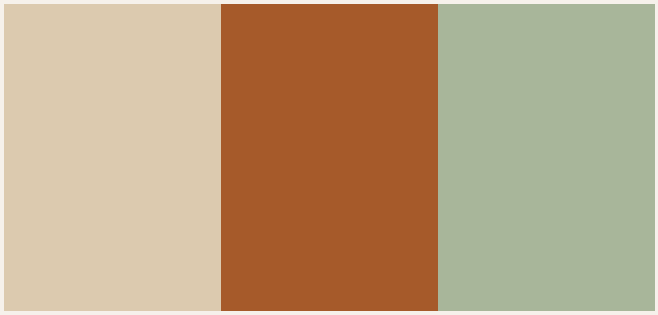

#F6F1EB

#7E2F19

#1A5E63

KRI ECO

Authentic overwater eco-pioneer

#DCCAAF

#A65A2A

#A8B69A

SORIDO-ONLY ACCENT

Lagoon Reef Teal

#1A5E63 / RGB 26, 94, 99

CMYK 85, 34, 42, 18

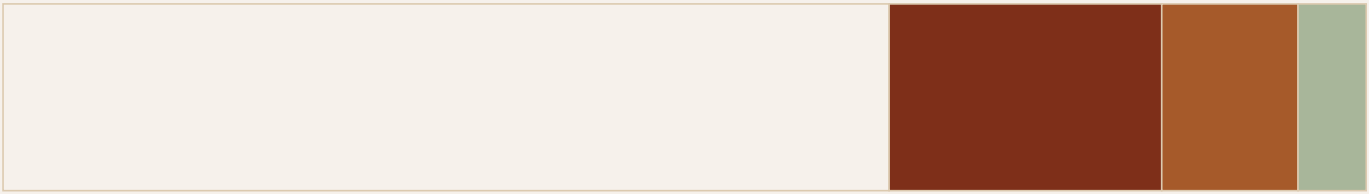

Use in fine rules, small details and selected Sorido panels. It is not a new master-brand blue.

Differentiate through palette emphasis, imagery and language. Keep the same logo, type families, spacing and graphic construction across both resorts.

03 / COLOUR

COLOUR WITH A CLEAR ROLE.

RECOMMENDED STARTING BALANCE / EXCLUDING PHOTOGRAPHY

65% light neutrals / 20% dark structure

10% clay or ochre / 5% resort or conservation accent

DIGITAL TEXT PAIRINGS / CALCULATED SRGB CONTRAST

Body copy

12.78:1 contrast

Headlines

8.10:1 contrast

Dark panels

8.10:1 contrast

Sorido panels

6.62:1 contrast

Eco detail

6.71:1 contrast

Warm CTA

4.54:1 contrast

Use at least 4.5:1 for normal text and 3:1 for large text. Never set pale text on Ochre, Sandstone or Sago. Do not rely on colour alone to communicate meaning.

Print: supplied CMYK values are specification targets, not an ICC conversion. Agree the stock and output profile with the printer; approve a physical proof.

04 / TYPOGRAPHY

A QUIETER, CLEARER VOICE.

DISPLAY / TENOR SANS REGULAR

DIVE DEEPER. STAY CLOSER.

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz 0123456789

BODY / SOURCE SANS 3 REGULAR

On Kri Island, days move between warm water, generous reefs and quiet evenings. A stay with Papua Diving connects the experience of the reef with the people who know it.

Aa

SUBHEADS / SOURCE SANS 3 SEMIBOLD

Local knowledge. Shared discovery.

NAVIGATION / SOURCE SANS 3 MEDIUM

STAY DIVING CONSERVATION JOURNAL

Replace Karla in new material. Keep African lettering exclusive to the supplied logo.

04 / TYPOGRAPHY

HIERARCHY THAT TRAVELS WELL.

H1 / hero

Tenor Sans Regular

UPPERCASE / +0.08em

PRINT 30 / 38 pt

WEB 48 / 60 px

H2 / resort title

Tenor Sans Regular

UPPERCASE / +0.08em

PRINT 22 / 28 pt

WEB 32 / 40 px

H3 / subheading

Source Sans 3 SemiBold

Sentence case / normal

PRINT 14 / 19 pt

WEB 22 / 29 px

Navigation

Source Sans 3 Medium

Short, descriptive labels

PRINT 10 / 14 pt

WEB 16 / 22 px

Body / editorial

Source Sans 3 Regular

Sentence case / normal

PRINT 10.5 / 15.5 pt

WEB 16 px / 1.65

Caption / utility

Source Sans 3 Regular

Keep meaning readable

PRINT 8.5 / 12 pt

WEB 13 / 18 px

Use left-aligned body text with a comfortable 45-75 characters per line. Never track body copy. Leave at least one body line between paragraphs and 1.5 lines before a new subheading.

For narrow screens: H1 may reduce to 32/40 px. Keep body text at 16 px and preserve hierarchy. Do not stretch text to fit a measure.

05 / VOICE & TONE

WARM. INFORMED. SPECIFIC.

Speak as a thoughtful host who knows the place. Invite discovery, share useful knowledge and give conservation claims context.

INVITE, DO NOT OVERSELL

SAY Explore Raja Ampat with the people who know its reefs.

AVOID The ultimate untouched paradise.

MAKE RESPONSIBILITY TANGIBLE

SAY Meet the guides and learn how to care for the reef during your stay.

AVOID The world's most sustainable resort.

RESPECT LIVING CULTURE

SAY Papuan people, knowledge and traditions are part of the story.

AVOID Exotic tribes and primitive island life.

Sorido Bay: calm, attentive, refined. Kri Eco: direct, resourceful, close to nature. Both: welcoming, educational and rooted in place. Check names, figures, awards and environmental claims before release.

06 / IMAGERY

LET THE PLACE LEAD.

LANDSCAPE / REEF / LIVED EXPERIENCE

Choose

Real Raja Ampat landscapes, reef biodiversity, local guides, guests and natural materials. Preserve honest water colour and natural skin tones. Credit photographers and confirm usage rights.

Compose

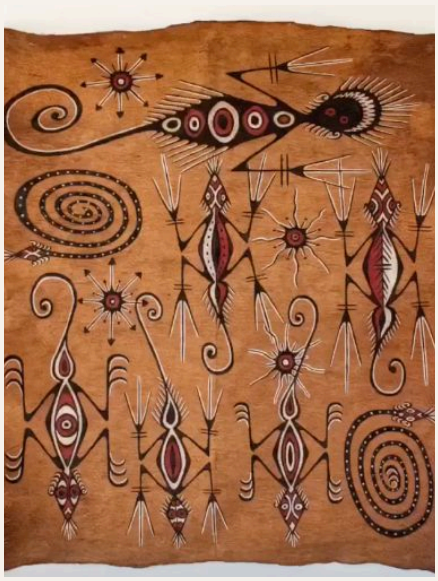

Give the subject space. Keep a quiet area for type; use a Linen field when contrast is uncertain. Protect the logo with its holding shape. Crop responsively without losing the subject.

Avoid fabricated destination scenes, generic tropical stock, heavy cyan saturation and decorative cultural imagery without context or consent. Source photography in this manual comes from the supplied employer PDFs.

07 / GRAPHIC LANGUAGE

BARK FIRST. REEF SECOND.

SUPPLIED BARK-PAINTING REFERENCES / BRIEF PAGE 3

The reference paintings use repeated bands, directional geometry, nested shapes and earth pigments. Translate that rhythm into restrained borders, rather than copying figurative or potentially sacred forms.

A new graphic interpretation

These assets are original bark-inspired geometry, not authenticated traditional artworks. The wave divider describes reef currents; it has no claimed traditional meaning.

Cultural integrity

Reference the supplied interior and cultural imagery on brief page 4 with respect. Have Papuan artists or culture-holders review new motifs before commercial production.

07 / GRAPHIC LANGUAGE

THREE ASSETS. ONE RHYTHM.

01 / PAPUAN BARK CHEVRON BORDER

Primary border for page edges, sleeves and packaging. Repeat horizontally at its native tile width; keep the aspect ratio. Never run a motif through logo clear space.

02 / RAJA AMPAT CURRENT WAVE DIVIDER

Secondary divider for editorial and digital sections. Keep it quieter than the bark border. Avoid stacking both motifs in one small field.

03 / SORIDO KRI CORNER EMBLEM

A shared decorative corner for a menu, card or presentation. Rotate by 90 degrees to suit the corner. Never use it as a resort logo or badge of cultural authenticity.

SVG: scalable vector, transparent background.

PNG: 4800 x 640 / 4800 x 520 / 1200 x 1200 px, transparent, 300 ppi metadata. Use at intended size; proof fine lines on fabric.

08 / APPLICATIONS

THE EDITORIAL INVITATION.

DIVE DEEPER. STAY CLOSER.

Two island experiences. One shared commitment to Raja Ampat.

Discover Sorido Bay Resort and Kri Eco Resort, where reef exploration meets warm, place-led hospitality.

papua-diving.com

PRINT ADVERT

Lead with one real image and one short headline. Keep body copy concise. End with one clear destination.

LAYOUT RULES

Use 12-15 mm margins. Keep logo clearance. Preserve a calm reading measure. Motif remains an edge detail.

PRODUCTION

Add bleed only in the final advert file. Check image resolution at final size. Confirm all marketing copy before release.

Scaled application study / not a press advert file

08 / APPLICATIONS / REDUCED STUDIES

FROM SCREEN TO STAY.

STAY DIVING CONSERVATION

ROOTED IN RAJA AMPAT.

Two intimate island stays, connected by a love of the reef.

Explore the resorts

WEBSITE / ADAPT THE LAYOUT, KEEP THE HIERARCHY

KRI ECO

A closer rhythm
with island life.

SORIDO BAY

A quieter base
for reef discovery.

Reduced studies: retain 32 mm / 120 px logo minimums at final output. Social tiles use one readable message; resort titles are descriptors, never substitute logos.

08 / APPLICATIONS / REDUCED STUDIES

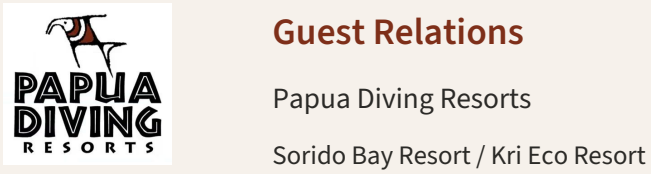

SMALL DETAILS. SHARED IDENTITY.

GUEST CARD / STATIONERY

Warm stock. Clear hierarchy. One narrow border. Keep practical guest information direct and readable.

EMAIL SIGNATURE / EDITABLE TEXT

Presentation & newsletter

Use a Linen field, a short Tenor title and generous photo space. For email clients without brand fonts, use Arial for live text; never turn a whole message into an image.

Clothing & merchandise

Keep the logo unchanged. Add bark detail at one cuff, hem or edge. Use a Linen holding patch on dark fabric. Request embroidery and print samples before manufacture.

09 / EVERYDAY CHECKS

CONSISTENCY IS A PRACTICE.

LOGO	DO Keep the supplied master, 1x clearance and minimum sizes. AVOID Recolour, stretch, redraw, reverse or crowd the mark.
COLOUR	DO Use the specified master colours and resort emphasis. AVOID Add new blues, overuse accents or guess print conversions.
TYPE	DO Use Tenor + Source Sans 3 with the stated hierarchy. AVOID Bring back Karla, fake bold Tenor or use African as body text.
IMAGE	DO Choose real imagery with permission and natural colour. AVOID Invent destination scenes or publish unsupported claims.
PATTERN	DO Use one quiet accent and preserve its proportions. AVOID Call unreviewed motifs authentic or assign invented meanings.

Before release: check copy, rights, contrast, size and proof.

10 / DELIVERY & PROVENANCE

BUILT TO BE USED.

THE SUPPLIED BRAND KIT

Printable A4 PDF with embedded fonts and vector motifs

ASE colour library + exact RGB / CMYK reference sheet

Three scalable SVGs + three transparent PNGs

Unmodified cropped logo + font files and OFL licences

README with usage, production notes and file checksums

SOURCE HIERARCHY

This 2026 system follows the current production specification: 1x bird-height logo clearance, 32 mm / 120 px minimum widths, Linen holding shapes and Tenor Sans + Source Sans 3. Earlier exploratory font and logo rules are superseded here.

EMPLOYER SOURCE DOCUMENTS

Brand Guidelines Brief 2026 (18 pages)

(AUG12) Papua Diving Revised Brand Guidelines (12 pages)

(AUG19) Brand Applications Mockup Compendium (11 pages)

(AUG 21) Typography Body Copy Comparison (7 pages)

PRINT & CULTURAL PRODUCTION NOTES

This is an A4 reference book, not a PDF/X press separation. Text and motifs remain vector; source photographs and the logo retain their supplied resolution. Request original high-resolution photography and an approved vector logo for large-format work. Match CMYK to stock with a printer proof. Review new bark-inspired artwork with Papuan collaborators before commercial production.
